Personal / Professional profile

I like helping other people from different age ranges; these thanks also to my international experiences where I met, and had to deal, with different cultures. I have many hobbies such as photography, fashion, design and arts. Since 2016, I started my studies in Visual Communication Arts and Art History (Combined Major) at the Franklin University Switzerland–Sorengo (CH). Moreover, I had the chance to be an Academic Mentor for a first-year seminar, for all the Professors that teach Art History and Visual Arts such as Professor Zdanski, Professor Fassl and Professor Gee. My senior semester I was working for Professor Zdanski as a studio art assistant and for Professor Gee as a research assistant. All my experiences I have had outside and inside Franklin have prepared me for future challenges in the work field.
